# **PRODUCT CATALOG**

# **ABOUT US**

Established in 2016 and located in Tianjin, Tianjin Taikang Sunshine Technology Co.,Ltd. is a professional wheelchair and auxiliary equipment manufacturing enterprise with a registered capital of 10 million RMB. The company covers an area of 25,000m² and 20,000m² among it is used as production area.

As a high-tech group enterprise integrating research, development, manufacturing and sales, the company mainly produces and manages Takan brand medical equipments including electric wheelchairs, manual wheelchairs, scooters, hospital beds, crutches, sticks, shower chairs, etc. All products are certified by ISO9001, ISO13485 system and CE. Annual output of products and accessory series is more than 200,000pcs.

With a professional research and development team, advanced production technology, strong production capacity and perfect after-sales guarantee, the company provides guarantee for domestic and foreign partners. With the purpose of "using taikang, enjoying sunshine", the company constantly improves product quality and serves the majority of users.

### DYW-459-46A3N1

- · Matt black powder coating aluminum frame;
- . Detachable seat cushion and backrest cushion:
- · Leathaire upholstery, breathable and easy to clean;
- . Flip-up armrest with PU pad, easy to get down or get on:
- · With waist seat belt and anti-tipper device;
- · 200W×2 brushless motor with electromagnetic brake;
- · Double folding footrest easy to get down or get on:
- · Climbing ability: 12°:
- Range: 20±10% km;
- · Max. speed: 6km/h
- · Max. user weight: 100kg:
- 24V/12Ah lithium battery(detachable);
- . 8" PU caster with shock absorption device:
- 12" wide pneumatic rear wheel

### DYW-459-46A3N

- · Matt black powder coating aluminum frame;

#### DYW-459-46A2

- · Powder coating aluminum frame;
- Adopt ergonomics design. Arc-shaped armrest is more comfortable. "Z" shaped seat can dispersive user pressure, and keep pressure sore away better. Special shaped backrest can support the user waist well to avoid secondar damage during long time using.:
- · Smaller turning radius. Axles moves 2cm forward to make the wheelchair turn much easier:
- · Detachable seat cushion and backrest cushion upholsteries are made of high quality mesh fabric. Base seat and backrest are made of beach net fabric, especially for using in summer.
- · With seat belt and anti-tipper:
- Flip-up footrest and armrest;
- 250Wx2 bub brushless motor:
- · Homemade controller with electronic brake system;
- Climbing ability: 12°:
- Range: 20±10% km; Max. speed: 6km/h;
- · Max. user weight: 100kg:
- 24V/6Ah lithium battery;
- . 8" PU caster, 12" wide pneumatic rear wheel.

- Optional device: anti-tippers.

### 4636N

- · Powder coating aluminum frame:
- Reinforced elliptical pipe frame, pipe diameter: 25mm, pipe thickness; 2.2mm;
- . Flip-up armrest with PU pad, foldable backrest;
- Fireproof fabric upholstery and detachable 5cm thickness decompression sponge cushion;
- · With seat belt:
- Detachable and swing-away footrest with plastic footplate and calf straps;
- Double brake systems: hand brake and attendant brake;
- . 6" PU caster, 24" quick extraction pneumatic rear wheel with
- anodizing aluminum handrim;
- Max. user weight: 120kg;
- Optional device: anti-tippers

### 4635

- Powder coating aluminum frame:
- Reinforced elliptical pipe frame, pipe diameter: 25mm, pipe thickness: 2.2mm;
- Fixed armrest with PU pad, fixed legrest with calf strap and thickened plastic footplate:
- Fireproof fabric seat and backrest cushions, and 5cm detachable decompression cushion;
- Foldable backrest with supportor:
- · With seat belt;
- 8" PU caster, 24" pneumatic rear wheel with aluminum handrim;
- · Max. user weight: 150kg.

### 4638

- · Powder coating aluminum frame;
- Reinforced elliptical pipe frame, pipe diameter: 25mm, pipe thickness: 2.2mm;
- Fixed armrest, fixed footrest with thickened plastic footplate and calf strap;
- Nylon fabric seat and backrest cushions, seat belt, and 5cm detachable decompression cushion;
- Foldable backrest with supportor;
- With hand brake and attendant brake;
- 8" PVC caster, 24" pneumatic rear wheel with plastic handrim
- Max. user weight: 130kg
